## Sustainable Folders and Binders from YES Eco-Brands.

Folders and binders are essential to promoting and displaying your collateral. Ask yourself... How do you promote your ideas when you have a green message? How about if your clients are environmentally conscious? The answer is sustainable folders/binders from YES Eco-Brands!

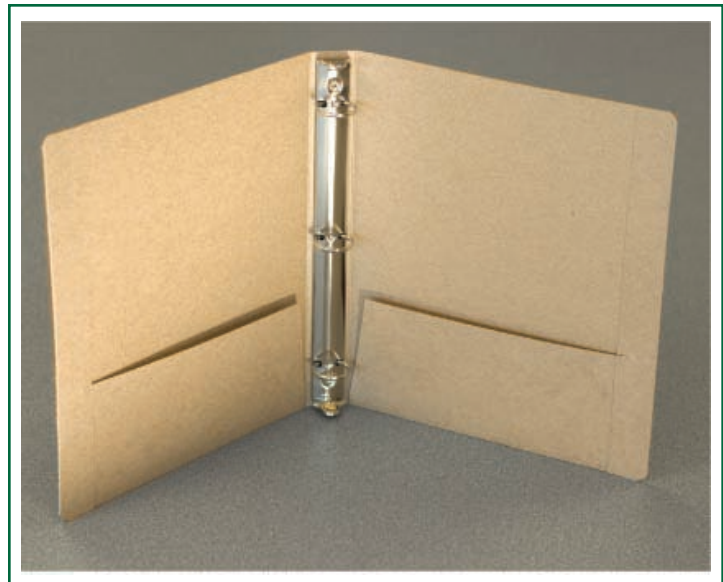

### What are the specs?

- An earthy, elegant solution to presentation marketing
- Made of 100% post-consumer recycled chipboard
- Printed with low VOC-emitting, renewable vegetable-based inks
- It's a cost-effective solution - priced equivalent to a PF-105 folder printed on a Group I paper stock
- Available in many other popular folder styles and configurations
- The perfect way to "green up" your presentations

### Various benefits:

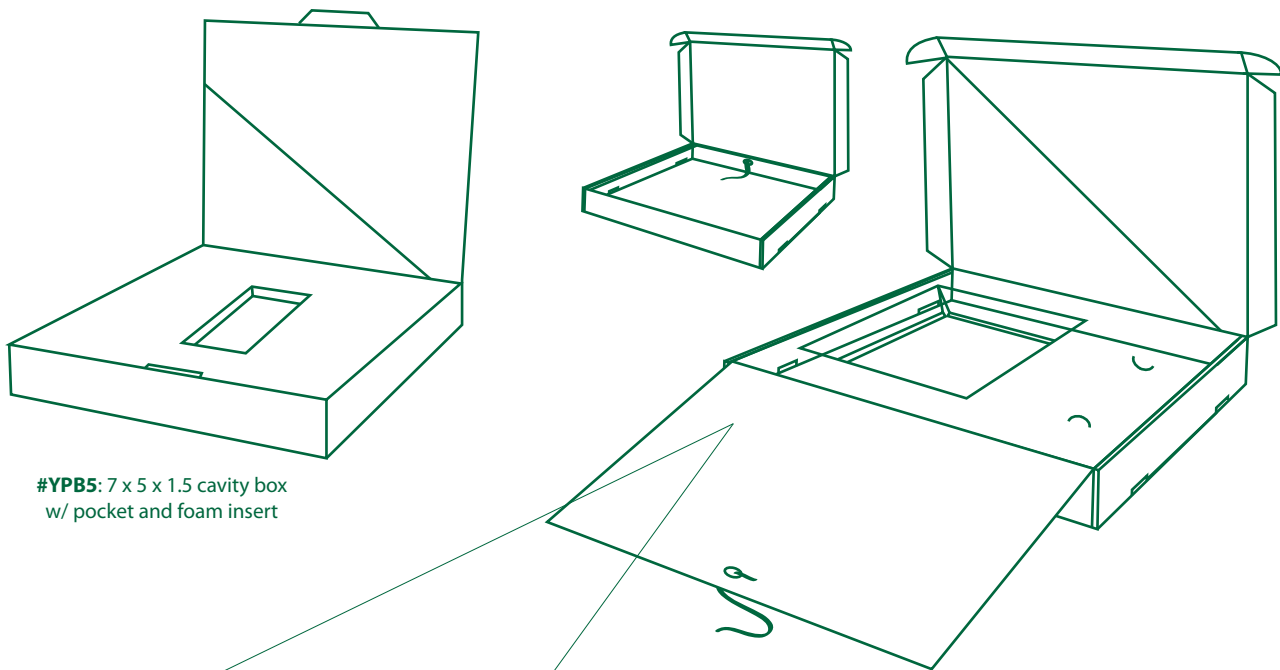

- Feel better about the environmental impact of your marketing efforts.
- Heavy 20pt. chipboard is durable and lasts longer, thus reducing costs for replacement.
- Make yours look elegant with spot PMS inks and blind embossing.
- Combine with printing your inserts on recycled or FSC certified papers to maintain your green theme.
- Have your presentation appeal to your "green-minded" clients!

## Sustainable Packaging from YES Eco-Brands.

Turn your next dimensional packaging project into a sustainable masterpiece! With YES Eco-Brands packaging solutions, you can take any mailer, folder, shipper, or promotional cavity box design and print it with soy inks on recycled stock.
